Technology Helps Teach!

It's no surprise that digital technology is important in the classroom. Since the Voya Unsung Heroes program gave out its first grant 20 years ago, we've seen a 15% rise in winning ideas that incorporate new technology funded by the awards.

* Example of "other" classroom projects include special education, child development, community service, leadership, mentoring, life skills, etc.

Results are based on analysis of data collected over the past 20 years (1996-2015) on classroom projects that have been awarded a Voya Unsung Heroes™ grant (CN0826-27134-0918).
